Clean Scheduler

Sales Partner Briefing

Commission closer terms, product, and growth path — for a potential sales partner

Prepared: September 2026

Audience: independent sales partner (1099)

The ask

Own pipeline, demo, and close for residential and commercial cleaning companies. The product is live; the constraint is selling it. The founder owns product and every customer setup call. You are paid only on accounts you close. Written terms before the first demo. 90-day trial: continue if you close at least 4 paying Business logos (or cash equivalent).

What you sell

Clean Scheduler is the operating console for cleaning businesses: quotes, crew schedule, invoices, customer portal, and bookkeeper month-end in one place. It wins against Jobber / Housecall Pro on cleaning-specific depth and flat pricing with no per-job fees. Buyer is the owner or office manager at a 2–30 person cleaning company.

Lead SKU is Business annual (\$1,236 / \$103 effective monthly). Trial is 7 days with a booked setup call. Stripe Connect (card payments) is on paid plans only.

Plan	Monthly	Annual (preferred)	Who it is for
Starter	\$39	\$374	Solo / price objection. Fallback only.
Business	\$129	\$1,236	Default close. Implementation included.
Pro	\$299	\$2,870	Multi-location or heavier ops. White-glove.

How you are paid

Independent 1099. No salary, no set hours. Shared outreach lists plus your own tools. Customer success is hired at \$8k company MRR; until then the founder implements every logo.

Term	Structure
Close commission	25% of first-year cash collected on accounts you close.
Residual	10% of that account's list MRR for 12 months, then 0% (or renegotiate at \$8k company MRR).
Inbound	Same rates if you work the lead to close. Founder-closed accounts: \$0.
Clawback	Reversed if the tenant refunds or churns within 90 days.
Not in the role	Onboarding, support, and product. Founder runs the setup call.
Trial	90 days. Continue if you close "e4 paying Business logos (or cash equivalent).
Later	At \$8k company MRR: option to convert to W-2 (base + lower commission) or stay 1099.

Pay on one Business annual

\$1,236 collected !' \$309 at close (25%). Residual: \$129 list MRR × 10% × 12 months = \$155. Year-1 total on that logo: \$464.

What this pays at different volumes

Rows 2–3 are annualized after 12 months at that pace (residual book full). Eight closes a month is stretch, not the company base forecast. Plan on other income during ramp. Monthly Business pays slightly more commission (higher cash collected); annual is still the close we want.

Volume	Close cash (25%)	Residual (book full)	Annualized	Read
4 Business annual in 90 days	\$1,236	\$619	\$1,855 year-1	Pass the trial. Side partnership.
2 Business annual / month	\$7.4k / yr	\$3.7k / yr	~\$11k / yr	Serious part-time once residuals catch up.
8 Business annual / month	\$29.7k / yr	\$14.9k / yr	~\$45k / yr	Full-time equivalent on commission.

Split of work

- You: list, outreach, demo, negotiate, collect first payment.
- Founder: live setup (import, next week’s schedule, first invoice), product, support.
- Company: prospect lists already in the product; one metro at a time.

How we sell

Default close: Business annual with implementation included. If they stall: monthly Business plus \$299 setup. Starter only for solo operators with fewer than five field staff.

Motion: personalized outbound in one metro. Demo, then founder on a 45-minute setup. A quote sent and a visit on the calendar within 7 days predicts a paid conversion.

Talk track: “Run your cleaning business from one console.” Speak to owners, office managers, and bookkeepers. Do not lead with Starter. Win on cleaning ops and month-end close, not Jobber feature count.

90-day scoreboard (shared with founder)

Founder keeps selling during the 90 days. Your personal bar to continue is 4 paying Business logos (or equivalent cash), not the full company scoreboard.

Weeks	Activity	Company target
1–2	Close live trials; every trial has a setup call	Pipeline clean
3–6	One metro; 3 demos/week; Business annual	8–12 paying · \$1.0k–\$1.6k MRR
7–10	Same metro; bookkeeper intros	15–20 paying · \$2.0k–\$2.6k MRR
11–13	Second metro if demo-to-close "e15%	\$2.5k–\$4k MRR

Company trajectory

Base case is founder-paced. Stretch is what production from this role can add. Mix: 25% Starter / 60% Business / 15% Pro (~\$132 blended ARPU). Vendor infra is about \$250/mo today. Founder covers product and onboarding until customer success is hired at \$8k MRR. Equity is not part of this offer.

Metric	2026	2027	2028	2029	2030
Paying tenants (base)	20	80	220	500	1,000
MRR (base)	\$2.6k	\$10.6k	\$29k	\$66k	\$132k
ARR (base)	\$32k	\$127k	\$348k	\$792k	\$1.58M
Paying if this role produces	35	150	450	1,200	2,500
MRR if this role produces	\$4.6k	\$20k	\$59k	\$158k	\$330k

What is already true

Item	Status
Product	Live. Quotes !' schedule !' invoice, portal, Connect on paid plans, month-end close.
Who implements	Founder, on every logo, until CS hire at \$8k MRR.
Prospecting	Outreach lists in-product. One metro at a time.
Equity	Not part of this offer. Separate conversation if ever.
Agreement	Non-solicit, customer ownership, clawback, and termination — in writing before demo one.

Next step

Sign the 90-day 1099 terms. First metro, first list, first three demos on the calendar. Continue if four Business logos (or equivalent) are paying at day 90.
